

## **ALLOTMENT LAW AND MANAGEMENT**

The course is designed to be both a guide to those Councils who own or are contemplating owning or running their own Allotment sites.

Delegates are encouraged to bring to the Course any particular matters which they would like discussed, and hopefully answered.

It is anticipated, subject to time constraints, that the Course will cover :-

The types of Allotments

Basic laws applicable

Do we have to provide allotments especially if we have no suitable site

What is an allotment

Acquiring land for allotments

Running Allotment sites – direct involvement or through an Association

What type of Agreement

What to include in Agreements

How to bring an Allotment Agreement to an end

Do we have to pay compensation

How to dispose of land designated for Allotments

Detailed notes will be provided to each delegate but they are not a substitute for attendance at the Course.
